

Steps to Apply!

1

Research your program options

Use our [Klein GO Portal to search](#) and learn more about the various program opportunities available through Global Opportunities. For more information about our programs, please email our staff at kleingo@temple.edu.

2

Consult with an academic advisor and Student Financial Services

An advisor can help you identify potential times to study away, while [Student Financial Services](#) can determine the types of financial aid that may be available to off-set the costs of studying away.

3

Complete your advising application

Stop in our office in Annenberg Room 07 to begin the process with a Peer Advisor, or just click "Apply Now" on the page of your preferred program!

Please note: GO will take 24-48 hours to review your advising application

4

Start your program application

Once your advising application has been reviewed by a Klein GO staff member, you will be provided with access to begin the application for your program of choice. You can [watch an instructional video](#) on how to get it done while you wait to gain access.

5

Review application requirements

Generally, each program will require: a 500 word application essay, unofficial transcripts from Temple or the institution from which you've transferred, 2 recommendations, and a mandatory application review meeting with GO.

Don't forget to tell your recommenders that they don't have to write a letter; they just have to fill out an online form!

6

Find funding for your experience

Apply for scholarships from Klein GO, Klein College, Temple, and external sources. You can search for scholarships using [our online database](#).

7

Enroll in your program

Once accepted into your program, you will complete enrollment paperwork specific to your program, submit a \$500 deposit to financially commit to your program, and complete a mandatory pre-departure orientation to prepare for your program.

8

Enjoy your time away!

Pack and prepare to have the time of your life! Enhance your career opportunities, experience beautiful sights, grow academically, and make lifelong friendships!
